

Staying safe and having your technology taken care of has never been so **easy** or **affordable** — with unlimited access to your own team of techs!

**Protection. Productivity. Savings.**

### About the Service:

The **iCare Pro** service helps NAPA members prevent cyber-security problems, eliminate tech headaches, and save money. It's designed for busy business professionals who don't want cybersecurity issues or computer problems getting in the way of their success.

The service includes unlimited cybersecurity computer checkups, virus and malware removals, computer troubleshooting, tune-ups, maintenance, and Ask a Tech consultations. Also includes security tech support for smart phones and mobile devices. All tech support services are done personally by U.S. based INVISUS certified technicians via phone and secure remote Internet connection.

### Includes UNLIMITED:

- **Computer cybersecurity checkups, virus removals**
- **Wi-Fi/Router security support**
- **Problem troubleshooting**
- **System tune-ups and speed boost**
- **Printer, peripheral device connectivity**
- **Email troubleshooting and support**
- **OS/Browser update checkups**
- **Software installation assistance**
- **Encryption software assistance**
- **Quarterly computer checkups and maintenance**
- **Mobile device security, connectivity support**
- **"Ask a Tech" consultations**

Windows, Mac computers  
iOS, Android, Microsoft, Kindle devices

The **iCare Pro** service provides NAPA members with monthly UNLIMITED access to expert security and tech support services for virtually any computer problem – for one low monthly fee per computer. It's like having your own team of techs—on demand.

### NAPA Member Pricing

**\$15 per mo./computer**  
(Reg. \$30) SAVE 50%!
